JavaScript is a high-level, prototype-based object-oriented, multi-paradigm, interpreted or just-in-time compiled, dynamic single-threaded, garbage-collected programming language with first-class functions and a non-blocking event loop concurrency model.

HyperMedia Browser/Editor
Prerelease b of Version 0.13
An excercise in global information availability
by Tim Berners-Lee
Copyright 1990,91, CERN. Distribution restricted: ask for terms. TEST VERSION ONLY
HyperText: Text which is not constrained to be linear.
HyperMedia: Information which is not constrained linear... or to be text.
This version of the WWW application can pick up hypertext information from files in a number of formats, from local files, from remote files using NFS or anonymous FTP, from hypertext servers by name or keyword search, and from internet news. Hypertext files may be edited, and links made from hypertext files to other files or any other information.
For more help, use "Help" from the menu. If that doesn't work, then your application has been incompletely installed.
If you have any comments or have bugs, please mail tbl@info.cern.ch. quoting the version number (above).

JFG Home
JFG's home page at InfoDesign
This home page demonstrates some simple concepts of the World-Wide Web infrastructure for global information sharing.
Today, I showed Tim's original Web browser to Marc Weber. I just took some notes about him and linked them to his name on the fly.
I use this World-Wide Web editor exactly like any word processor, with the power to create links from sensitive pieces of text to other places, for instance to personal notes or to any information source in the world.
WWW research stuff

**Chaque semaine, vous aurez un challenge à compléter. Ceux-ci ne seront pas notés, mais il est très vivement conseillé de les faire.**

Comme vous le savez déjà, même pour les étudiant.e.s les plus motivé.e.s, certains sujets techniques sont de vrais murs de difficulté. Les abattre nécessite beaucoup de dévouement. Je serai donc généralement disponible pour répondre à vos questions hors des heures de cours. Je vous encourage néanmoins à faire preuve d'autonomie (lisez la documentation attentivement) et à vous entraider. Attention, entraide ne signifie pas plagiat. Les travaux pratiques doivent être les vôtres et les vôtres uniquement.
